LANGFORD-KAUFMAN FIGHT IS POSTPONED FOR ONE WEEK

Opposition of Governor and
Police Deter Promoters of
Fight Billed Today.

Reno Making Strong Bid For
Other Fight.

WHAT THE FIGHTERS SAY NOW.

San Francisco, June 18. (Bulletin.)—Owing to the opposition of the police and Governor Gillette it was announced this afternoon that the Langford-Kaufman fight would be postponed one week.

San Francisco, June 18.—Although preparations have been made to stage the Langford-Kaufman fight this afternoon, Promoter Blot declared he intended to proceed with the battle. It is believed he desires to lay the foundation for a damage suit against those responsible for the interference by the authorities.

Efforts are to be made to have Rickard, if he decides to go to Nevada, pull the fight off in Reno, as the facilities are better there.

What Jeff Thinks.

Ben Lomond, June 17.—When informed of Gillette's latest action in the Langford fight, Jeffries said: "Do they call it religion to allow a man to risk every penny in a business proposition, only to crab his game at the eleventh hour?"

Orders were received from Manager Berger today to pack up in preparation for shipment for Reno. Jeffries probably will start tomorrow night for Reno.

Johnson Ready Any Time.

San Francisco, June 17.—Johnson said if the order came he would pack Sunday night for Reno. He says he does not care where he fights.

May Declare Martial Law.

San Francisco, June 18.—At 11:40 last night Adjutant General Lauck stated that a proclamation lacking only the governor's signature to declare martial law in San Francisco has been forwarded by telegraph to Sacramento, for the governor's signature. This was done by the governor's direction, issued before he left the city in the event Lauck is certain an attempt to hold the Langford-Kaufman fight would be made.

RENO APPARENTLY WILL GET JEFFRIES-JOHNSON FIGHT.

Reno, Nev., June 18.—Reno people believe they have the Jeffries-Johnson fight clinched. Preparations are being made as if the announcement will officially be soon made. Tentative contracts have already been let for the lumber to construct the arena, and contractors have engaged men who will go to work 30 minutes after Rickard makes his decision. Workmen today are fixing lights for carpenters to work at nights.

WATERS-PIERCE OIL CO. MAY COME TO PADUCAH.

There is a well-defined rumor on the streets today that important officials of the Waters-Pierce Oil company will hold a meeting in this city next Tuesday for the purpose of deciding on a site for the establishment of a modern oil distributing station in Paducah. Color is lent to the rumor by the fact that the Waters-Pierce company invariably follows the line of the Burlington railroad.

150 Jews Expelled.

MANAGER COOPER RESIGNS JOB

ANGERMEIERER TO LEAD THE
INDIANS FOR A FEW
DAYS.

At a meeting of the directors of the Paducah Baseball association, Harry Cooper, manager of the Paducah baseball club in the Kitty league, resigned and Angermeierer was selected captain and temporary manager of the team until Monday morning, when the directors will meet and elect a new manager.

The change in management was made with the intention of giving Paducah a winning team. The playing of the local team has not satisfied the local fans, who demand a pennant winner, and consequently the receipts have dropped so that the patronage has not met the expenses. By the shake-up it is expected to get better results from the players.

In explaining the change one director said: "The people of Paducah deserve a winning team, and it is our purpose to fulfill that, but at the same time the association should be extended the hearty support of the public. The association was organized not for profit, but for the sake of baseball. In starting the league the expenses have been heavy, and while the patronage to the Sunday games has been good, the week day games have been losers for the association. The directors are trying to do what they think is best for the local club, and anticipate under the new management that a winning club will be produced, and that the fans will cease knocking and extend their hearty co-operation to the team."

Manager Cooper has not been popular with the players, and by his retiring it is expected that all of the players will strive harder. Cooper tried to produce a winner, but his efforts failed because of discord in the ranks.

One Minister Slays Another in Pulpit

Black Creek, Ky., June 18.—(Special.)—The Rev. Robert Vanever and Rev. Isaac Perry, rival Baptists fought with knives in the pulpit of the church here last night. Vanever's throat was cut and he died a few minutes later. Blaine Perry, a brother of the preacher, who is said to have helped kill Vanever, is in jail with his brother at Williamsburg. Church troubles caused the fight.

On the box, too, he had the notation, "For Wallace Park Zoo: I read The Paducah Sun."

W. A. MELVIN IS SANDBAGGED

FELLED FROM BEHIND AND
FOOTPAD ESCAPED.

W. A. Melvin, an aged machinist, employed at the cordage factory of the Cohanus Manufacturing company, Ninth and Boyd streets, was sand-bagged at Fifth and Clay streets shortly before dusk last evening by a footpad, who had been shadowing him from the business district. His assailant fled without taking time to search the victim.

Mr. Melvin had made several purchases down town and had several dollars. It is supposed he was followed as far as Fifth and Clay when the highwayman felled him with a blow over the left ear. The patrol wagon was called and he was taken to his home on North Sixth street. After rallying he could not give a description of the robber, as he did not see him. No money was missed. Mr. Melvin was not badly injured as was first thought.

Roosevelt is Glad to Get Back to The People He Loves—Is Pleased With His Trip to Foreign Lands

New York Gives Him a Royal
welcome and He Replies in
Characteristic Speech of
Marked Brevity.

New York, June 18.—Ideal weather greeted the steamer Kaiserin Augusta Victoria as she sailed up the bay. Bedecked with flags and colors and passed in to Ambrose. At 7:05 o'clock vessels in the bay were whistling a mighty salute of honor to Roosevelt. The Kaiserin was sighted from Sandy Hook at 6:30 and stopped at quarantine at 7:50. Roosevelt and his family left the Kaiserin and boarded the cutter Manhattan at 8:20. The Manhattan began the cruise up bay. Roosevelt breakfasted at 8:28.

He landed at the battery and was met by Mayor Gaynor, the police and a band and escorted to the grand stand. Thousands were jammed about the battery. On the trip up the bay he was saluted by 21 guns from the battleships.

After Mayor Gaynor had welcomed him, Roosevelt said: "I wish to thank you, Mayor Gaynor, and through you to thank the committee, and through them I wish to thank the American people for this greeting. I need hardly say I am deeply moved by the reception given me. No man could receive such a greeting without being made to feel proud and humble. I have been away a year and a quarter, and have seen strange, interesting things. I have thoroughly enjoyed myself, but now am glad to get home to be back in our own country, back among our people to live. I am ready and eager to do my part, so far as I am able in helping to solve the problems that must be solved. If we of this, the greatest democratic republic on which the sun ever shone, are to see its destination rise to the highest level of our hopes, and its opportunities. This is the duty of every citizen, particularly mine for any man who has ever been honored by being made president to so carry himself that the American people may never have cause to feel regret that they once placed him at their heads."

The land parade started at 11:10. Steamer passengers landing related a story of Mrs. Carlos R. Duque, whose husband headed the Panama legation at Washington, refusing her hand to Roosevelt during a reception on the ship. She declared as president, Roosevelt countenanced revolution on Panama and she didn't want to meet him. Roosevelt was amused.

Roosevelt didn't keep a diary of the trip across, but if he had it would show his time spent simply. He visited the stokers and steerage passengers and held a reception for the general passengers. Part of each day he spent writing letters and magazine articles and walks on the deck.

SAW DEAN AND THE BOY

FRED NEELY REPUTED TO HAVE
SEEN THE MURDERED BOY
WITH HIM.

Nothing new was developed today upon the Pool road murder mystery. The fact that a bloody towel was found in the house where it is suspected that the murder occurred is said to have no connection with the murder. As evidence against one of the boys in jail, it was reported to the police that Fred Neely, a car repairer at Central City, who knows Dean personally, saw Dean talking with the murdered boy at the Union station about 11 o'clock on the Saturday night preceding the murder. At the time he said they were quarreling about returning to the city. Dean admitted knowing Neely.

Dean takes his imprisonment with cheer. He whistles and sings in his cell and appears as happy as the ordinary person outside the bars. He has high hopes of being released at his examining trial next week. Farrin does not appear worried and talks freely on all subjects except the murder, which he has been advised not to discuss in any phase.

Several days of genuine summer weather have helped business wonderfully. Especially has the effect of old Sol's rays been felt by the retail merchants, who have found a ready demand for summer togs and furnishings. The farmers are likewise rejoicing for it enables them to work the lowlands, where the planting of crops has been delayed. All lines of business report an active week, and prospects for a much better if the good weather continues.

PATROLMAN IS ON TRIAL TODAY

LUCIEN SHELTON ACCUSED OF
CONDUCT UNBECOMING
AN OFFICER.

Patrolman Lucien Shelton of the Paducah police department was brought before the board of police and fire commissioners at 1 o'clock this afternoon to answer a charge of conduct unbecoming an officer. Two weeks ago on the steamer Georgia Lee, charges were preferred by the commander, Captain Tom Staid, accusing him of knocking him down twice with his fist and drawing a gun on him. The examination was before Mayor James P. Smith and Commissioners Sutherland and Rieke. No action had been taken at 2 o'clock this afternoon.

Over ten witnesses for the prosecution were examined after one hour's session and Attorney Thomas Hazelp, representing Patrolman Shelton, introduced his client. Patrolman Shelton admitted knocking Captain Staid down twice and also to drawing his revolver. He said Captain Staid called him a "damned liar" and as a crowd gathered he pulled his gun for protection. He denied having any "knucks."

Captain Staid was the first witness sworn and he said there was no provocation whatever for the officer's conduct. He said after Patrolman Shelton had knocked him down twice he pulled his gun and held it at his stomach, threatening to kill him if he did not tell where the roustabout was concealed. The crews of the steamers Georgia Lee and Nashville were witnesses for Captain Staid and swore that Captain Staid did not use any profane language, merely telling the officer he knew nothing of the negro's whereabouts. Henry Kopf, second clerk on the Nashville, testified that Patrolman Shelton cursed as much as two times and after the affair drew his gun on him (Kopf). Captain Doss, on the Georgia Lee, testified that Patrolman Shelton had a pair of brass knuckles and he saw him place them on his hands. Witnesses testified that Captain Staid rarely ever used profanity.

The examination of witnesses was separate.

After hearing all the evidence, the commissioners suspended Shelton 30 days without pay.

WILL OWENSBORO JOIN THE KITTY

EFFORTS BEING MADE TO GET
THE CITY IN.

Representatives from Hopkinsville and Clarksville are in Owensboro today conferring with the promoters of Owensboro in an effort to line up Owensboro in the Kitty league. Owensboro has a crack independent team, and could come into the league in less than a week, while the Henderson fans are still holding the team together with the anticipation of securing the sixth city, so that the circuit may be extended to include six clubs. Mr. A. C. Murray, of Clarksville, who was a live wire in starting the Kitty, is in Owensboro, and the local baseball enthusiasts are hoping that he will round up Owensboro, which would make a compact circuit with Henderson.

Although the Paducah Pastors' association decided not to dismiss their congregations tomorrow the First Christian and Kentucky Avenue Presbyterian churches will not hold evening services in order to allow their membership to attend the lecture by Dr. Frank Crane, of Chicago. Professor Monaghan, whose lecture delighted such a large audience Friday night at Wallace park, in the course of his remarks spoke very enthusiastically indeed of the Chautauqua idea, which is gaining ground so rapidly throughout the country.

Professor Monaghan endorsed the Chautauqua emphatically and told what splendid results they were producing in other cities in which he had observed them and ventured to hope that the fifth annual meeting of the Paducah association would receive the whole-hearted support of all Paducah and Western Kentucky.

Prof. Deal has arranged to serve luncheon during Chautauqua week, which will be quite a convenience to visitors.

NO NEW DEVELOPMENTS IN CHARLTON MURDER CASE.

SHIRLEY'S BILL PLEASES THE HOUSE INSURGENTS.

Washington, June 17.—The house insurgents scored what they regard a big victory when the committee on rules agreed to report favorably on a resolution which will deprive the committee of the right to place legislation in a preferential position. The insurgents believe it will end the old practice of "smothering bills in the committee." The resolution will allow the house by a majority vote to bring up a bill for action, as though it had received favorable consideration. Representative Shirley, of Kentucky, is the author.

Have you paid your city taxes yet? The penalty goes on soon, you know, and you might overlook this matter. It would be best to look after this today.

Games Today and Tomorrow.
Clarksville at Paducah.
Hopkinsville at Vincennes.

Two raw decisions of the umpire took all the fighting spirit out of the Indians yesterday afternoon, and the Clarksville team marched off the field winners by a score of 7 to 1. Up to the ninth inning Clarksville had a lead of only two scores, but in the ninth bunched errors on the part of the Indians enabled the Volunteers to score four runners. The Indians lost several good opportunities to score, by the decisions of Umpire Smith with runners on the sacks. Several times it looked like Paducah runners had beat out infield hits, but his "ups" decided they were out.

It was in the sixth inning that a decision calling Overton out on second started the fans to knocking. After two were down Overton singled to left field. He started for second. Blue whipped the ball to McCance. The throw was high and the second baseman had to leap into the air, making a fine stop with his gloved hand. In landing on the earth he dropped on Overton who was across the bag. Umpire Smith promptly called the little catcher out.

Hardly had the fans become in a good humor when Payne was called out at the plate in the seventh inning. Payne was first up and walked. Harris made a near sacrifice, and Payne was on second. Angemeier followed with a bingle to centerfield, and Payne raced home. Thompson returned the ball on a high bound to Blue who was standing at the right of the plate. "Dummy" Payne made a long slide for the rubber and as he slid over Blue

reached down and tagged him. "You're out," announced Umpire Smith, and Payne almost talked he was so angry.

Clarksville made the first score in the second inning. Heck singled, and was advanced to second by McWilliams, who was hit with the ball. He scored when Blue went out. Paducah tied the score in the third. Angemeier drove one to left field, and was sacrificed to second by Vonadore. Lockhart was struck by the ball and stole second. Cooper knocked a long fly to center garden and "Ange" scored on the throw.

However, the visitors took the lead in the fourth. Thompson drove one to left field for three sacks, and he scored on a high fly to right. Another tally was counted in the sixth. Thompson singled to center. Heck flew out to Cooper. McWilliams was safe on a maff by Lockhart of an easy fly. Blue hit to centerfield, and Thompson scored.

In the ninth the Clarksville team added four, and the Paducah team lost sight of any rally to bring victory. Blue hit to left, while Priest struckout. Latner went out Vonadore to Cox. McCance was safe on a wild throw by Vonadore, and Blue scored. Runwater was safe at first on a low throw by Payne. Shinn was hit with the horse hide and the base were full. Thompson drove one out and three runners scored.

It looked like the Indians would score in the ninth, but it never materialized. Cox and Overton were easy out, but Payne singled to left. Harris singled to right and stole second. With Payne on third waiting to score, Angemeier failed to secure his fourth hit, and knocked an easy one to McCance.

Hopkinsville Drops Lower.

Vincennes, Ind., June 18.—Hopkinsville dropped lower yesterday when Vincennes won the second game of the series by a score of 5 to 3. Bailey was on the slab for Vincennes and was touched up for nine safe hits, but his team mates afforded good support, and he pulled out the victor. McElfresh worked for Hopkinsville and allowed only six hits.

Mustdown.
With the new arrangement of the players a better article of ball was played yesterday, although several wild throws in the ninth inning enabled Clarksville to walk away.

Manager Bridges of the Clarksville team is ill and unable to don a uniform.

Crain will work for Paducah today, while "Cy" Lambert will twirl for Clarksville.

Little Angemeier smacked out three safe hits yesterday, besides pulling off a pretty catch in left garden after a long run. As the little left fielder walked to bat he was given the glad hand by the fans.

After his two decisions calling out base runners, Umpire Smith tried to even up on balls and strikes.

Diamond Dust.
Ware, the little collegian, has been given his release. The little infielder was not in condition, and was considered too light for the Kitty league slugger.

Nat Dortch, one of the boosters of the Hopkinsville team, was in the city yesterday watching the game.

Big "Lefty" Davis is playing with Paragould, Ark., in the Arkansas league. Reports are that his slugging the ball has broken up more than one game.

Dorris Carroll will leave next week to join the Harrisburg, Ill. team in the Southern Illinois team. Carroll started out with Paducah and was hitting like wildfire.

Hooks Will Journey to Brookport.
Tomorrow the B. B. Hook baseball team will line up against the strong Brookport Eagles at Brookport. Ziba Williams has taken charge of the team and with new material promise to develop a team that will make all of the amateur teams of western Kentucky hustle to stay within sight.

Council will be in the box for the Hooks, while Veatch and Doyle will work for the Brookport boys. The hooks will lineup; Wagner, c; Council, p; W. Henneberger, 1b; Goodman, 2b; Cox, 3b; Monroe, ss; Burton, lf; Williams, cf; Harper, rf.

Cripples Will Play.
The Cripplewhips and the Weilles will play tomorrow morning on the diamond west of the Illinois Central shops. Hollich and Mercer will be the battery for the Cripplewhips, while Switzer and Wagner will do the heavy work for the Weilles.

Another Game.
The Wallersteins and the Tigers will play tomorrow on the shop diamond. Both teams are closely matched and a good game is expected. Willett will pitch for the Tigers while Shelton will be behind the bat. The battery for the Wallersteins will be Henry and Cathey.

Are You Getting What Is Due You?

Among Investment Securities Generally Recognized as Conservative, the 8% Stock of the American Telephone & Telegraph Company Stands at the Very Top

Why are certain securities on the Stock Exchange List regarded as conservative for investment purposes?
Because they give the highest returns possible consistent with safety to the investor.

In any investment there are two things to consider—the rate of interest and the degree of safety. Generally speaking, the lower the rate of interest the higher the degree of safety, and vice versa.

Beyond a certain point in returns, investing ends and speculating begins.

Investing assures reasonable profit—with minimum risk.

Speculating promises larger profits—but entails greater risk.

If you cannot afford to lose, you will do well to choose for investment those securities whose perfect combination of profit and safety entitle them to be classed as "conservative."

ARE YOU

A WOMAN

Mrs. Ison, of Baltimore, Tells of An Experience of Special Interest to Women.

Baltimore, Md.—"For several years," writes Mrs. W. H. Ison, of 1419 East Madison street, "I suffered, off and on, until finally I was taken down and could do nothing. The pains I experienced, I shall never forget. I felt off in weight, until I was nothing but 'skin and bones.'"

My neighbors said they never saw anything like it. I believe I would have been in my grave, if I had not heard of Cardui. It is wonderful, and I shall praise it as long as I live.

I am improving all the time. I do all my housework, and feel fine. I hope you can print my letter so it may induce others to give Cardui a trial."

Many women like Mrs. Ison, are weak, worn out and discouraged, on account of some painful, obscure, womanly ailment.

Are you one of these sufferers? Cardui will help you. It has helped thousands of other women. They write enthusiastic letters, as Mrs. Ison did, from all over the country, telling what this remedy has done for them.

Cardui relieves, by acting on the cause of the trouble.

Its prompt action has restored thousands to health.

It will help you, too.

Try it.

"Sunny Crest" is an ideal home

A WOMAN'S APPEAL. To all young sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuritis, pains to write to her for a home treatment which has repeatedly cured all of these troubles. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box R, South Bend, Ind.

In an ideal setting with an ideal hostess for entertaining, and was a scene good to look upon yesterday in its beautiful decorations of flowers and prettily gowned guests. The porch, a greenery of potted plants and vines with its hanging baskets and vases of sweet peas and carnations, furnished an effective background for the setting of the punch table, which was strewn with pink and white sweet peas and vines. A delightful refreshing punch was served here by Miss Manie Cobb assisted by little Misses Mollie Gardner and Evelyn Berry. At the porch entrance resembling a fairy in her dainty frock and holding a prettily decorated basket to receive the gifts, was little Miss Virginia Hart.

The hall was a bower of palms and ferns with the pink and white sweet peas in vases and baskets. The table in this room was especially pretty decorated as a mound of sweet peas peeping from a bed of ferns. Receiving with Mrs. Utterback here were Mrs. H. S. Wells, Mrs. H. B. Sewall, Mrs. H. G. McElwee and Miss Elizabeth Sinnott.

The double parlors where the green and white color scheme was carried out, brides roses, carnations and sweet peas with ferns and sprays of vines held about the woodwork and chandeliers with bows of tulle. The mantels were banded with ferns and vines, with here and there a pretty bouquet of white sweet peas, roses and carnations. This was the throne room of Mrs. Utterback's beautiful palace. A throne had been erected in white in a grove of tall palms and beautiful spreading ferns. When all of the guests had assembled, sitting on her throne the bride-elect was serenaded by the court musicians, Mrs. John Brook accompanied by Miss Belle Lincoln and Miss Mary Wheeler, and Miss Rogers sang very prettily appropriate selections, and Mrs. Vincent Salvo gave an instrumental selection. Miss Dow Husbands read a clever piece of poetry written by a friend and dedicated to Miss Hills.

Very pretty and original was the presentation of the gifts by the four little girls, La Verne Purcell, Lena Utterback, Elizabeth Caldwell and Pauline Fresham, representing health, happiness and longevity. Each carried a parasol, two in green and two in white. Arriving at the throne with a basket of gifts they in turn gave a little verse to the bride while showering her with the gifts.

In the dining room beautiful in its arrangement of pink and white sweet peas, the table was an especial feature. Banded in pink and white sweet peas in the center of which sat a big French basket of the same dainty flowers. Extending above the table and hanging from the prettily draped chandelier was a wedding bell of pink and white sweet peas tied with lovers' knots of pink tulle. A delicious ice was served and the scheme of pink and white was carried out in the ices, cakes and mints. Serving in this room were Misses Anita Keller, Mary Wheeler, Ethel Sights, Emmanah Nahm, Mary B. Jennings and Helen Hills.

For Miss Hills.

Miss Corinne Winstead and Mrs. John Swift Montgomery, of Thomasville, Ga., entertained the Sewing Bee and the visiting young ladies this morning at 10 o'clock complimentary to Miss Blanch Hills, whose marriage to Mr. Saunders Almond, of Lynchburg, Va., will take place on the 21st. A delightful picnic luncheon was enjoyed on the court house lawn.

Gypsy Tea For House Guests.

The younger society girls will entertain with a Gypsy tea this evening at Wallace park at 6 o'clock, complimentary to the house guests of Miss Helen Van Meter.

Dinner at Standard Club.

A stag dinner was given by the young men of the Standard club last night. It was the first of the month

and was enjoyed immensely. Those present were: Messrs. Herbert Hecht, Jake Muth, L. L. Wallerstein, of Chicago; Rudy Loeb, Jesse Weil and Julius Tick.

Chautauqua.

The Chautauqua, beginning tomorrow and continuing on through the week, will be the place where you'll see your friends every afternoon and evening. During this time there will be fewer receptions and other parties there, by making it possible for all to be present there. Programs and season tickets can be had at all of the downtown stores.

SCARED INTO SOUND HEALTH.

Mr. B. F. Kelley, Springfield, Ill., writes: "A year ago I began to be troubled with my kidneys and bladder, which grew worse until I became alarmed at my condition. I suffered also with dull heavy headaches and the action of my bladder was annoying and painful. I read of Foley Kidney Pills and after taking them a few weeks the headaches left me, the action of my bladder was again normal, and I was free of all distress."—Gilbert's Drug Store.

DID you ever stop to think of the inconvenience you are put to if you are not using a Gas stove? Did you ever stop to think how convenient it would be if you could do away with having to break up kindling, carrying hods of coal and waiting for fuel to come up? Did you ever stop to think how convenient it would be to simply turn a valve, light the gas and be all ready to do your cooking?

Surely you must agree that the CONVENIENCE of gas

Daily Thought.

Out of this tangle, danger, we

MAYOR SMITH'S APPOINTMENTS.

Mayor Smith is sending in quite
a list of appointments to the council
for Monday night, and he is to be
complimented upon his choice and
congratulated that he is securing
such good men. Every selection he
has made has shown his rare judg-
ment of men. He has not consid-
ered politics, apparently, in his
choosing, but has only sought those
men who would render their city
efficient, intelligent service. The city
is certainly benefitted by such a
policy, as is quickly seen by the
splendid condition of every depart-
ment of the city government.

DR. SIGHTS.

Mayor Smith is right, when he
says Paducah sustains a great loss
in the acceptance by Dr. Sights of
the superintendency of the Hopkins-
ville asylum. As the head of the
board of health, Dr. Sights has been
tireless in his efforts to make Paducah
a healthy and beautiful city. And
he has done it at a great sacrifice
to his own interests. With Dr.
Sights the work has been a pleasure,
and only those who have come
in intimate contact with him and
know the great good he has done to
put Paducah in the forefront of

his worth. He took a keen
interest in all legislation in other
cities that made for good sanitary

nances our council has passed.

HEAD'S CANDIDACY.

Mayor W. O. Head, of Louisville,
has issued his formal announcement
as a candidate for the Democratic
nomination for governor of Ken-
tucky. That Mr. Head has proved
himself a good citizen of the Ken-
tucky metropolis and a good mayor
of the city, as mayors go, we do not
propose to try to gainsay. He might
make a good governor, from the
viewpoint of business and executive
ability. The trouble we imagine
that Mr. Head is going to have is to
convince the rural voters that he is
both in earnest in making this race,
and that, with the backing of the
Whallens, it would be the part of
wisdom and prudence to place him
at the head of the state government.
Mr. Head was the chief spokesman
and probably one of the largest con-
tributors in the presentation of a
"loving cup" to the Whallen brothers
one night recently. Can the
people of Kentucky afford to have a
man for governor who thinks
enough of the Whallens to present
them with so distinguished a token
of consideration?—Clinton Gazette.

TAFT AND BRYAN ON ROOSEVELT

The Outlook, of which Theodore
Roosevelt is one of the editors, will
print messages of welcome to Mr.
Roosevelt from President Taft, Gov-
ernor Hughes, Mayor Gaynor and
the editor of the Outlook.The president wrote as follows:
"The return of Mr. Roosevelt
from Africa and Europe ought to
arouse as great a demonstration of
welcome from his countrymen as
any American ever received. After
the heavy cares of the presidential
office for nearly eight strenuous
years, he sought rest by contrast
in the depths of the African forests
and in great physical exertion in the
hunting of large game and the pro-
curing of valuable specimens of the
fauna of the dark continent."No one who knows Mr. Roose-
velt, and no one who understands
the character of the African climate
and the kind of hunting in which he
was engaged, can minimize the dan-
gers from disease and actual com-
bat with wild beasts to which he
was exposed. It goes without say-
ing that wherever there was danger
he welcomed its excitement and de-
light to observe and record its
effect upon his own emotions. His
trip to Africa was planned with the
thoroughness of a military cam-
paign, and his plans were executed
with the vim and energy that might
be expected.

Royal Progress Through Europe.

"In view of what happened when
he reached civilization, however,
those of us who had the privilege
of talking with him before he went
can afford to have some fun at his
expense in his frequently avowed
determination to avoid all public
functions and entertainments. He
expected to call on the persons in
authority in each place which he
visited, to have half an hour's con-
versation with the ruler, if he would
receive him, and then go on his way
like a private citizen, seeing the
things of interest and hurrying
home. Instead of that, his path
from the time he landed in Europe
until he sailed has been a royal
progress, and the courtesy and at-
tention and profound respect shown
him, not only by kings and the lead-
ing men of every country, but also
by the people, have not been equalled
since Grant made his tour about
the world. This is the more re-
markable because Grant had the de-
served reputation of being a great
military leader who had command-
ed a million men and won a war of
gigantic extent; while Mr. Roose-
velt's achievements, which have
given him his standing before the
world, have been almost wholly in
peaceful times, and in a war against
evil wrong and corruption, which
ordinarily is not spectacular and
does not command world-wide at-
tention.

Whole World Impressed.

"The remarkable character of the
reception that he has had in Europe
shows the deep impress that his per-
sonality, his character, his aims and
his methods as a civil and social re-
former have made upon the world
at large. He was always, of course,
a man of great breadth of vision
and catholicity of views; but he
comes back to us now with his ex-
perience enriched by observation of
each country of Europe from a point
somewhat behind the scenes. With
his notable power of quick acqui-sition of the circumstances of a situa-
tion, his close and more or less in-
timate association with the rulers of
the leading countries of Europe and
with their prominent statesmen has
given him an insight into world
politics that will make him still
more valuable to his country as a
statesman."The people of this country will
give him a welcome from their
hearts, first, because of their affec-
tion for him and the fact that he
has returned to them safe and
sound from a perilous expedition;
second, because since he left them
they have seen the people and the
great men and the monarchs of
other countries tender their pro-
found respect to the same qualities
in the man that his own people had
previously noted and loved; and,
third, because by his personal touch,
the sincerity and strength of his
deliberations, he has increased the
prestige of Americans throughout
the world.

"WILLIAM H. TAFT."

A Letter From Mr. Bryan.

"Lincoln, Neb., May 13, 1910.
"Editor Collier's Weekly, New York
City:"Dear Sir:—In response to your
request for a word, I beg to say that
the American people will extend a
very cordial welcome to ex-Presi-
dent Roosevelt when he returns to
the United States after an absence
of more than a year. They appre-
ciate what he has done in directing
the attention of Europe toward the
public questions which are of uni-
versal interest. His notable speech
at Paris made a profound impres-
sion, and his words are needed in
this country as well as in Europe.
It is now a little more than fifty
years since Abraham Lincoln gave
expression to the idea that the man
is more important than the dollar;
and the phrase that he coined will
not die. Mr. Roosevelt's statement
that human rights are superior to
property rights is but another way
of stating the same idea, and the
truth that he stated is so obvious
that we may well be surprised that
it seemed to startle two hemi-
spheres. However, all truth is
startling when epigrammatically ex-
pressed, and it is sometimes neces-
sary to express the truth in a start-
ling way in order to call attention
to it."But aside from the interest that
the people feel in what Mr. Roose-
velt has said abroad, they will wel-
come him home because of the im-
portance of the public questions at
issue in the United States. The ex-
president is a man of ideas, and he
is able to give forcible expression
to them. Whether one agrees with
Mr. Roosevelt or not, one must be
glad, if he believes in free speech,
to have him express his views with
characteristic clearness. Truth does
not shun discussion; it grows in the
open, and grows most vigorously
where speech is free and the oppor-
tunities for debate are broadest."Mr. Roosevelt has evidently
found renewed strength in recrea-
tion, and political friends and polit-
ical foes alike will be pleased to see
him again in the political arena,
and they will wish him length of
days. Very truly yours,

"W. J. BRYAN."

HELPFUL HINTS TO CITY FARMERS

By H. L. Rann

FIRST ARTICLE.

WHAT shall we do to keep the
boys on the farm? In-
quires one anxious sister
who has seven daughters
of marriageable age. The only way
we know of, sister, is to hitch them to
the hog house with a log chain. This is
painful, but salutary, and is calculated
to inspire respect for parental au-
thority.No self-respect-
ing farmer will
allow a bow-legged,
squat nosed,
short tailed asth-
matic rooster to
wake him and
his family every
day at 3 a. m.
with a high gear crow. There is no
necessity of it. Just pipe the roost-
er's crow through a four inch exhaust
pipe and run it underground into your
neighbor's back yard.Never allow the hired man to read
Shakespeare or Carlyle while riding
the corn cultivator. We knew a hired
hand who devoured Emerson's "Es-
says" while thus engaged, and he be-
came so absorbed that the team backed
him into a barbed wire fence, ripping
the lining from his abdominal cavity.A balky horse is a trial in the home.
Many cases are incurable, while others
yield to mild and humane treatment,
such as kicking the animal in the pit
of the stomach with a hobnailed boot,
tickling his nostrils with a crowbar,
stroking him gently over the ears with
an elm club, etc. The best way, how-
ever, is to sit quietly in the buggy and
read extracts from the book of Job
while waiting for the balkee to shoot
the chutes.The average so called hog cholera
cure is a rank fraud, designed merely
to separate the farmer from his milk
check. We have placed on the market
the only genuine cholera cure in exist-
ence. Here is the prescription: First
lay the hog gently on his back in the
front parlor and spray his stomach
with iced tea. This provokes a con-
suming thirst on the part of the chol-
era germs, causing them to rise to theSPRAY HIS STOMACH WITH ICED TEA.
surface, when they can be easily re-
moved with a pair of pliers. This
treatment is good only during the dog
days, for cholera germs have no thirst
during the winter months.After the boy has worked on the
farm all summer for his board and
overalls hand him 20 cents in currency
and send him to the county fair for
an outing. The average boy can have
a regular Fourth of July celebration on
20 cents, and your generosity will en-
dear him to the farm and give him a
broad, liberal outlook on life.Constant Reader wants to know if
there is a way to keep a sucking
calf quiet while teaching her how
to drink skim-milk from a ten
quart pail.The remedy is very simple: Grasp the
calf firmly by the tail and nostrils,
turn her face toward the setting
sun and hit her twice in suc-
cession in the back of the head with
a meat ax. This treatment has
never been known to fail since Adam.Don't stick your nose at the King
drag. It will make a sour road look
sweet in less time than any other de-
vice known to man. The only objec-
tion to it is that it is too darned sim-
ple. It ought to have three or four fly-
wheels, fifty or sixty cogs and a few
hundred coil springs attached to it.
Then if \$285 f. o. b. Chicago were
charged for it it might come into gen-
eral use. As it is, it is handicapped by
cheapness. Nobody wants a road drag
which costs only a few boards off the
back fence, a bolt or two from the
windmill and a fistful of skinned
knuckles.Why not brighten up the henry
with those lace curtains that have been
better days?Now is a good time to look over the
calves' heads for
warts. If there is
no corn doctor in
the neighborhood
remove the warts
with a draw-
shave, beginning
at the southwest
corner of the
wart and work-
ing due east. If
the calf is inclin-
ed to be restive
under this treat-
ment, soothe her
with an ax held
firmly across
the nose. If she
recovers from this
treatment she will live to be
eighty years old.With all due respect for wearers of
the cloth, we advise against buying a
jack that carries around indorsements
from a minister of the gospel. We had
a friend who bought a jack from aWE ADVISE AGAINST BUYING A JACK WITH
ENDORSEMENTS FROM A MINISTER.A clergyman friend, who said that the
children could use his caboose as a
stepladder, and inside of a week the
animal had scattered a large and grow-
ing family over a rock crushed road
and a half mile long. We would
sooner trust our anatomy to the ten-
der mercies of a drunken corn shred-
der than face the rotary action of a
sleepy eyed mule which was once a
member of a preacher's family. De-
spite the fact that the average preach-
er doesn't know a jack from a jackpot,
we notice that when it comes to a
horse trade he can paint rings around
any other class of our citizenship.The practice of deborning as usually
carried out is needlessly cruel. The
best method is to have the horns ex-
tracted by a painless dentist, who will
draw them while you wait at \$1 per
horn. The heifer which has inhaled
a couple of bags of laughing gas
while in the dentist chair will never
kick anybody's front teeth loose again.Every farmer ought to have a strop
for his disk harrow. It is neat and in-
expensive and when hung in the par-
lor makes a nice ornament. We ad-
vise against the use of the self strop-
ping harrow. It is not practical and is
liable to bleed the hired man when in
perfect health.The colt which persists in kicking
the hind quarters off its mother every
day or two should be curried with a

is to extract the voice with a bread

this is done thoroughly the voice rarely
comes back.Here is a little item which is worthy

RAILROAD PARKS

ON MEMPHIS DIVISION OF N. C. IN GOOD CONDITION.

Thomas Bennett, Foreman of Freight Repairs Goes to the Great Western Road.

All of the parks at the stations on the Memphis division of the Nashville, Chattanooga & St. Louis railroad are pronounced in the best condition this year than in a long time. The gardener, James McLaughlin, has been busy this year arranging his parks and flower beds at the stations, and is well pleased with his work. At Fifth and Norton streets he has one of the prettiest parks on the division. The flower beds are tastefully designed, and are well kept. The park at the local station has not been kept but for a few years. The parks at Benton and Murray are pronounced the prettiest on the division.

In order to accept a similar position on the Chicago Great Western railroad, Mr. Thomas Bennett, foreman of freight repairs, has resigned his position with the car department of the local Illinois Central shops and will leave early next week for St. Paul, Minn., where he will be located. His resignation came as a surprise to his many friends among the railroad employees, and they regret to see him leave. Mr. Bennett has been employed in Paducah by the railroad for seven years and for four years has been foreman of freight repairs, having under his supervision a large number of carmen. He came to Paducah from Louisville to accept a position under Mr. T. M. Baughan, who is traveling car inspector on the Chicago Great Western railroad now and secured the position for Mr. Bennett. His new position is a merited promotion with an excellent opportunity for further advancement. His family will remove to St. Paul in a few weeks.

For an inspection of Kuttawa as a site for the annual picnic the arrangement committee will visit Kuttawa tomorrow. The committee will leave at 11:25 o'clock. Those who will make the trip are: W. R. Davis, F. A. Milliken and J. R. Rutter.

A staff meeting of all the foremen of the Louisville division will be held tomorrow by Master Mechanic J. F. Walker.

Mrs. Scofield's Work in Chicago.
Admirers of Italian music in Chicago will be afforded an opportunity tomorrow night to hear a number of rare operatic selections from the work of Donizetti, Puccini, Verdi, Leoncavallo, Arduini and Mascagni, sung by amateurs of the city at Handel hall.

The Italian musical festival will be under the direction of Signor Arturo Marese, assisted by Mrs. M. C. Scofield.
Among the selections to be sung are portions of the opera Don Carlo, by Verdi, and from Lina, by Donizetti.

Cairo, Ill., June 18.—(Special)—Surprising their friends, Miss Nell Hotchkiss and Mr. Robert J. Moore, both of Paducah, arrived in Cairo this morning at 11:19 o'clock on the Illinois Central train, and were married. They went directly to the county clerk's office, where the license was issued, and the ceremony was pronounced by the Rev. L. G. Graham, pastor of the Cavalry Baptist church, and a former Paducah minister.

This morning the bride left her home at 8 o'clock and her parents thought she was going to her work. She met Moore by appointment and they rushed to the train which they boarded and left for Cairo. The father of the bride opposed the wedding, but the couple expect parental forgiveness when they return to Paducah.

The parents of the bride had not received the news of the wedding until a reporter of The Evening Sun informed them. They were surprised, however, as their daughter did not return for dinner, and had not gone to work. Miss Hotchkiss was the only daughter of Mr. and Mrs. D. B. Hotchkiss, of South Fourth street, and is employed as a stenographer at M. Livingston & Co. Mr. Moore is engineer on the towboat I. N. Hook, and is a popular young man.

KILLS HIS LIONS

"Cherokee Ed" Slays Three Beasts That Attacked Keeper.

Lebanon, Ky., June 18.—Sam Rose, the man who was so badly maimed by the three lions at Cherokee Ed's farm, was again attacked by them. Rose was watering them, when one of the large males reached through the bars of the cage, and fastening his claws in his coat, sought to draw him closer to the cage. He managed to escape with a whole skin, but his clothes were badly torn. When informed of the trouble Cherokee Ed took a large caliber rifle and killed all three of the lions. It required 50 shots to do the work. The lions were skinned and the hides sent to Louisville to be converted into rugs. They will be expensive ones, as the lions cost \$2,000 about 18 months ago.

Have you paid your city taxes yet? The penalty goes on soon, you know, and you might overlook this matter. It would be best to look after this today.

TAFT TALKS STATEHOOD.
Would Have the House Accept the Senate Measure.

Washington, June 18.—President Taft today took upon his shoulders the task of securing statehood for Arizona and New Mexico. It has been suggested that the president is holding up the river and harbor bill as a club to secure his legislative program. He is unquestionably the center of the legislative situation.

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

New Perfection Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till the fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

LETTER READ FROM CATHOLIC BISHOP

APPLAUDS OBJECTS OF THE WORLD'S MISSIONARY CONFERENCE AT EDINBURGH.

Says Conviction is Profound That Universal Religion is Absolutely Necessary.

APPLAUDS THEIR EFFORTS

Edinburgh, Scotland, June 17.—Today's features of the World's Missionary conference were the reading of a letter from Monsignor Bonomelli, Roman Catholic bishop of Cremona, Italy, and the presentation of the report of the commission on "Education in Relation to the Christianization of National Life."

The communication of the bishop was in response to an invitation for him to contribute a message.

Monsignor Bonomelli addressed his reply to Silas McBee, an American delegate. It read in part as follows:

"A conference of representatives of all the Christian denominations, held with the noble aim of better making known Christ and His church to consciences which feel and exhibit in practice all the profound and fecund beauty of religious aspirations, is a fact of such importance and significance that it cannot escape the attention of any one who may follow the conference, however superficially, in what a degree the most profound problems are agitating and revolutionizing the modern spirit."

"Your conference, which is being held in Scotland, the land of strong and noble ideals, though at one time torn asunder by religious strife, is a triumphant proof of another consoling fact; the most desirable and precious of human liberties, religious liberty, may now be said to be a grand conquest of contemporary humanity, and it enables men of various faiths to meet together, not for the purpose of hating and combating each other for the supposed greater glory of God, but in order to concentrate themselves in Christian love to the pursuit of that religious truth which unites all believers in Christ United in one faith, the various spiritual forces combine in the adoration of the one true God in spirit and in truth."

"For these reasons I applaud your conference. I know very well that some skeptical spirits, saturated in gross materialism or cold positivism, may smile at your initiative, and tax you with utopian optimism, or with being well-meaning dreamers, shutting your eyes to the realities of life. 'Yours, gentlemen, is not an optimistic idealism, nor an idle dream. The elements of fact, in which you all agree, are numerous, and are common to the various Christian denominations, and they can therefore serve as a point of departure for your discussions. 'It is, therefore, legitimate to aspire to a unity of faith and of religious practice, and to work for its realization by the consecration of all energies of mind and heart. This is a work in which we in our day may well co-operate. 'Now, on what matters and on what principles are you agreed, gentlemen? To my thinking they are as follows: Like myself, all of you are persuaded that the physical, ethical and social developments of life do not satisfy man, because man, whether he wills it or not, is oppressed by the infinite; and this consciousness, from which he cannot deliver himself, urges him to harmonize his physical and social conditions with the supreme reality, which is God, the source of all these conditions and to which they are subordinate. Without such harmony, the ethical and social life loses its significance and impresses us with its insufficiency. Faith, therefore, in God the Creator, which bestows on human life an eternal and absolute value, is for you the primary point of agreement. You all share faith in Christ, the Redeemer. 'Thus we are united in the profound conviction that a universal religion is necessary, and that this must be the Christian religion; not a cold and formal religion, a thing apart from human life, but a living force, pervading the human soul in its essence and its various manifestations, a religion, in short, which completes and crowns our life, and which bears fruit on works of love and holiness. 'May truth be as a shining light, illuminating your consciences, and making you all of one heart and one mind. My desire for you is but the echo of Christ's words, which have resounded through the centuries. Let there be one flock and one Shepherd."

There is further improvement in the iron trade with increased inquiry. The existing quotations are considered very low, and in consequence there is less disposition on the part of consumers to defer purchases in the expectation of concessions. A large amount of business is announced as having been placed by the railroads and other interests, which strengthens the steel revision. Open hearth material is in good demand, with billets quoted at \$29, Pittsburgh, but Bessemer is rather weak at about \$25.50.

There is increased demand for wire products, and in merchant pipe manufacturers' business. The output in finished lines is fair and structural shapes and plates are quoted around \$1.50 Pittsburgh, while metal workers have bought freely of crude supplies.

Great Lack in Beds.

At the present rate of increase nearly forty-five years must elapse before sufficient hospital accommodations to provide for all the indigent consumptives in the United States will be provided, declares the National Association for the Study and Prevention of Tuberculosis in a bulletin issued today.

Although over 7,000 beds in hospitals, sanatoria, camps, and wards for tuberculosis patients were established last year, there are fully 300,000 indigent consumptives who ought to be placed in such institutions and a total of only 22,720 beds in the entire country. On May 1, 1909, there were 15,244 beds for consumptives and 294 institutions. The annual report of the National Association shows an increase of 99 institutions and 7,500 beds.

In seven states, Alabama, Idaho, Montana, Nevada, Oklahoma, Wyoming and Utah, with a combined population of over 5,000,000, not one bed for consumptives has been provided. In nine states and territories, Alaska, Delaware, Florida, Kansas, Mississippi, South Carolina, South Dakota, Vermont and West Virginia, the number of beds for consumptives in each case is less than 50, while the combined population of these states is over 7,000,000. On the basis of 400 deaths to a million of population, which is approximately the present rate in the United States, there would be nearly 5,000 deaths annually from tuberculosis in these fourteen states with at least 20,000 cases of this disease all the time, and less than 500 beds to care for them.

New York state leads in the number of beds for consumptives provided up to May 1 with 5,476 beds. Massachusetts is second with 2,403 beds; Pennsylvania, third with 2,347 beds; Colorado, fourth with 1,489 beds, and New Mexico fifth with 1,104 beds. As yet, not one state in the country has made adequate provision for its consumptives. New York has set itself the task of having "No uncare for tuberculosis in 1915," and several cities in other parts of the country have adopted similar programs. The National association says that tuberculosis will not be stamped out until all cases of this disease are cared for either in their homes or in institutions. With this end in view, efforts will be made to increase the number of hospital beds in this country to at least 35,000 by May 1, 1911.

S.S.S. CURES OLD BLOOD TROUBLES

Contagious Blood Poison is at the bottom of a great many old blood troubles. The disease may have been contracted years ago and some treatment used that removed the outward symptoms and shut the virus up in the system to slumber in the blood, but it only awaited a favorable opportunity to break out in some form again.

Certain forms of catarrhal troubles, especially where the bones are affected, scrofulous affections, non-healing sores, ulcerated membranes, etc., are due to this specific poison. Perhaps many who are afflicted in this way are ignorant of the fact that the seeds of this mighty poison are still hidden in the blood. Like the deadly serpent, which is dangerous as long as the faintest spark of life is left to enable it to sink its poisonous fangs, this powerful disease will corrupt and debilitate while the least particle of its insidious virus remains in the blood.

The best time to get rid of Contagious Blood Poison is when the disease is first contracted, and before its virus so penetrates the blood as to cause ulcerated mouth and throat, copper-colored spots, falling hair, etc. Then of course the victim is saved much humiliation and suffering; but even after the poison has become established in the system it can be removed and a cure effected if the blood be thoroughly purified with S. S. S.

S. S. S. is the greatest of all blood purifiers. It possesses penetrating powers that enable it to go down into the blood, and remove the last trace of blood poison. It cures all blood troubles simply and solely because it removes the cause from the circulation. Not only does S. S. S. cure cure Contagious Blood Poison when first contracted, but reaches it in any of its stages, even where the trouble has been inherited. S. S. S. is made entirely of roots, herbs and barks, and does not contain the slightest trace of mineral in any form. You can get rid of your old blood trouble if you will take S. S. S. and allow it to purify the blood. Book on the blood and any medical advice free.

A PERFECT CURE.
Some eight years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot. No language can express my feelings of woe during these long years. I was advised by friends who had seen wonderful cures made by it, to try S. S. S. We got some and I improved from the start, and a complete and perfect cure was the result. S. S. S. is the only blood remedy which reaches desperate cases of old blood troubles.

SUN REPRESENTATIVE MOTORS

AN INTERESTING AUTO RIDE.

(Staff Representative.)

Many and great are the pleasures of touring in an automobile, that modern time and space annihilator. Given a good, sturdy car, and a congenial passenger load, and you will have to search long and far to find something more fascinating. No matter about the weather and road conditions, if you enter the sport with the proper degree of appreciation. They appear great annoyances at the time, but, in retrospect they merely have added to the fun.

You who have not had such a trip, should accept the first opportunity to present itself. I was invited by Mr. George DuBois to take a trip "through the ticks" with him, for two days "this week, and, having had a taste of the delights of such roving before, eagerly accepted. Mrs. DuBois accompanied us and we planned a jaunt through McCracken, Graves, Carlisle and Ballard. We first stopped at Lowes, in Graves county, and here found a most hospitable people. The auto is not a novelty nowadays in these parts, but its advent always assures an interested crowd of spectators,—of young boys and older "boys," and the knowledge of almost every part of the machine these folks possess suggests an intimate acquaintance with them. Lowes is a substantial town. Its merchants are enterprising, its people thrifty, and all were busy and full of big expectations for the growing crops with not a complaint of any character to be heard. From Lowes we drove to Fancy Farm. I had always heard of Fancy Farm, and expected much of it, and, truly I was not disappointed. It is situated in a fine farming community, and its people are as thrifty as one can find anywhere. All are in good financial circumstances, and all have the time and inclination of education and those diversions that make for a satisfied people. I had often heard of the fine church there, St. Jerome's Catholic church, and it was a pleasing surprise. It is a handsome brick structure, large, well planned, with plenty of light and ventilation, and much beauty of exterior and interior. I called upon the pastor, the Rev. Father Charles Haesley, and was not prepared for his statement, when in answer to my inquiry, he said that his church has 3,000 communicants. It is an old settlement, and almost every one for miles around belongs to this church. They are proud of it, and justly so. Proud, too, are they of a new parochial school they have just recently completed. It is located on a beautiful hill, and set in a grove of fine trees. The church cost the congregation about \$35,000, and the school buildings \$25,000. The brick for the school building was made by these people on the grounds. There is also an enthusiastic council of Knights of Columbus there, and ground will be broken in a few days for the erection of a handsome home for the order. Every one gives Father Haesley credit for the splendid church and the schools and he is certainly the most popular man in that section. He was a classmate of Father Jansen, who was pastor at St. Francis de Sales in Paducah, for nearly thirty years, and reminds one of that beloved minister.

Milburn was our next stop, and there we spent the night. The town is in the southeastern part of Carlisle county, a fine farming community. Carlisle will have good crops this year, and every one is in a good humor naturally. The wheat looked fine, and is ready for harvest. This is a big hog market and the high price of the porker means much to these good folks. The needs of the community, especially Milburn, and its business men are working hard for it. "We are going to have that electric line to Paducah," said one of the most prominent merchants. "All of the surveys have been made, the rights-of-ways secured, and the money arranged for, and work will start in a few weeks at both ends. The line will start at Columbus, Ky., and run through Milburn, Fancy Farm, thence on into Paducah." It is certainly needed, too, for there is just lots of food stuffs here that these people could get big prices for, if they had an interurban on which to freight it to Paducah. We spent the night with Crib Boswell, one of the most genial souls one ever met, and early the next morning hied for Kerbyton and Cunningham, both in Carlisle. All along the way we were struck with the unexpected condition of crops. The cold, damp weather of the past two months had given many of us the nightmare, but a few weeks of good weather will right much of the harm done. We saw acre after acre of new ground being planted, and it won't be long until every bit of this land will be utilized. Car-

Hisle's roads are better than Graves, and the merchants and farmers are keen for better ones yet. Of course, they are all dirt, and we found some pretty bad spots,—only they were anything but "pretty," but the road builders are at work now ironing out the kinks. The bridge approaches need more attention than any other feature of the roads just now.

From Cunningham we headed for Lovelaceville. Here is a big trading point, with some good stores, and all doing lots of business. It is just a mile over the county line, in Ballard, from McCracken, and only a good run from Paducah. The farmers were all quite busy, so store trade was light, but the merchants reported good business. There is going to be a great amount of tobacco and corn in old Ballard this year. The tobacco, in many places in every county in fact looks sad just now, but good weather will bring it out, probably. If it does, your farmer will be king in west Kentucky this fall, if prices hold.

We must credit Ballard county with the best dirt roads in this end of the state. But then, Judge Hines and his fiscal court know their value, and are big boosters for them. We found the bridges in fine condition.

A few weeks ago, in a very nearby town; one of the most prominent merchants lost his entire stock of goods by fire. He was fully insured, he thought.

In truth, the bridges in Ballard are in far better condition than those on the much praised McCracken roads and Ballard's road builders can teach McCracken's supervisor a few things. From Lovelaceville we drove to Blandville, thence to Hinkleville, and the roads were a delight. There are some hills on them,—you are going up all the time from Lovelaceville to Blandville, and Blandville must be on a young mountain, for I cannot remember when we had many opportunities to coast along the way. An interesting character at Blandville is Mr. E. W. Horr, the merchant. Slim of built, a white head crowned with a skull cap; a beaming, genial smile that wins everyone, he is much interested in every visitor to his big store, and that store is big. He carries more stock than most of Paducah's retailers. And what an interesting stock! Everything one can want,—you know that is characteristic of the country store, and every item of the stock bears the date it was unpacked, and the cost price, and his calendar notes the day and the time of the callers. A big thermometer tells you the temperature, and copies of all the government weather reports hang over a desk. It is said that Mr. Horr has the oldest weather record in the state and a copy of every report since then. They are certainly interesting. Mr. Horr is a great student, and it is hard to find a topic on which he will not talk with you with the authority of a savant. He rarely leaves his town, but has a wide acquaintance all over that country, and no matter what one may want, Mr. Horr either has it, or quickly gets it for you. "I am in business for the fun there is in it, and there is lots," he said to us. "Nothing harms me more than to have a call for something I haven't got." He insisted that we should go to call on his wife, and we were glad that we did so. We found his home on a long, graceful sweeping hill, with one of the prettiest views fancy can picture. Mrs. Horr met us at the door, and we found her a character of rare interests. She was born and reared in the bluegrass,—Oldham county, and one can trace a wistfulness to still be there in her interesting conversation. She is a great lover of flowers, and has them in profusion, and she is a most interesting conversationalist, of the old school that prized that art. She very seldom leaves her home town, but evinced the keenest interest in and knowledge of current events and the new interests of an ever renewing world.

From Blandville we drove to Hinkleville, thence to Kevil and on home. And maybe that gravel road at Woodville did not look good! You motorists who want a delightful, short ride should go to Kevil some afternoon and back that night. Mrs. Stewart, at the hotel, will give you a supper that you will remember with pleasure for ages, and you will find the best stretch of road anywhere near Paducah. More Paducah folk should take trips like this one, and meet these good people. Paducah is the hub of this surprisingly prosperous territory, and we should court closer communion with it and its people.

The Conservation of Nature's Resources
Applies as well to our physical state as to material things. C. J. Badlong, Washington, D. C., realized his condition, and took warning before it was too late. He says: "I suffered severely from kidney trouble, the disease being hereditary in our family. I have taken four bottles of Foley's Kidney Remedy, and now consider myself thoroughly cured. This should be a warning to all not to neglect taking Foley's Kidney Remedy until it is too late."—Gilbert's Drug Store.

THE NEW COMMERCE
COMMISSION MEMBERS.

Washington, June 17.—Following are the most prominently mentioned here today as likely to be appointed members of the new commerce court created in the railroad bill: Martin Knapp, New York; Wade E. Ellis, Ohio; James S. Harlan, Illinois; G. A. Severance, Minnesota; Frank B. Kellogg, Minnesota; Williams Peters Hepburn, Iowa. The court consists of five to be appointed by the president as additional circuit judges. The appointments will not be made until December. Members of the court receive a salary of \$7,000.

WHAT A SUMMER COLD MAY DO
A summer cold if neglected is just as apt to develop into bronchitis or pneumonia as at any other season. Do not neglect it. Take Foley's Honey and Tar promptly. It loosens the cough, soothes and heals the inflamed air passages, and expels the cold from the system.—Gilbert's Drug Store.

Appreciative.
"So you were deeply touched by the poem young Mr. Softly wrote to you?"
"Yes."
"But it was not a good poem."
"I don't care. It was just as much trouble for him to write it as if he had been Shakespeare."—Smart Set.

GLAD TO RECOMMEND THEM
Mr. E. Weakley, Kokomo, Ind., says: "After taking Foley Kidney Pills, the severe backache left me, my kidneys became stronger, the secretions natural and my bladder no longer pained me. I am glad to recommend Foley Kidney Pills." In a yellow package.—Gilbert's Drug Store.

Mark Twain and Frank Millet.
Into the dining room with its colonial furniture and a portrait of himself painted years ago by Frank Millet. "It's all mine except the hair," he remarked. "I looked in bewilderment. 'It was this way,' he explained, 'when I started sitting for that one, my hair was fairly long, but as the sittings continued, it grew until it was uncomfortable. So one day, without saying anything to Millet about it, I went to the barber to have it trimmed. Unfortunately, I grew sleepy in the comfortable chair, and when I woke up I saw that I had lost all likeness to my portrait. I didn't know what to do, for I was afraid of Millet in

those days, so on the day for the next sitting I hired a wig and went to the studio. When I got there Millet at once noticed how fine my hair looked and painted it, and it wasn't until the session was ended that I took it off."—S. J. Woolf in Collier's.

THE CHAUTAUQUA

The Chautauqua association has prepared the best program it has yet offered, for the sessions which begin at the Chautauqua grounds, Wallace park Sunday morning. The present indications, too, are that the meetings will be the most successful yet. Some of the best lecturers and entertainers on the Chautauqua circuit have been secured and it is the duty of our people to show their appreciation by a liberal patronage. The association is merely an organization of public spirited men, who are endeavoring to entertain us, while at the same time furnishing some things that are instructive in the highest degree. The association has never made a dollar and does not strive to, and every cent of revenue received from the annual events is used to employ better talent for the next season.

WORSHIP TOMORROW

In Nature's Own Temple; Chautauqua Opens in the Morning.

Paducah's big Chautauqua meeting opens its fifth annual session tomorrow morning at 10:30 a. m., with a union meeting of Cairo's Men's Bible class, 500 strong, and the Men's Bible class of the Broadway M. E. church, with its 299 members. Be there and enjoy the services with them—out in the open, among the trees, where it is cool and peaceful and quiet. The general public is invited.

In the afternoon, comes the first formal number of the Chautauqua—the concert at 3:30 p. m., of the Parland-Newhall company—a musical feature which has never been excelled in a Paducah concert. Their work is flawlessly beautiful and you will enjoy it hugely.

In the evening, just after the vesper service at 7:30 Dr. Frank Crane, of Chicago, will deliver his beautiful lecture, "What Will You

SODA FOUNTAIN TALK

In making our ice cream we use only the pure, rich, thick cream, the finest vanilla that money can buy, and granulated sugar. If we bought a richer cream, it would be too fat and churn into butter. You can test our ice cream by letting it melt, and the melted cream is as wholesome and good as can be. We use no corn starch, no eggs, no gelatine, and no condensed milk in making our ice cream. In a number of states the use of gelatine is prohibited by law. As gelatine is only refined glue, it has no food value, and is used simply to make the cream hold together. We see no use adulterating our cream with such stuff. We use no eggs, for the eggs are used to give it a thickness and a rich color that frozen milk would not have without the use of eggs. Corn starch is used only to adulterate, and we find no reason for its use at our fountain. Condensed milk is so very cheap that ice cream can be made with it at a cost of less than 50c gallon. For this reason the ice cream containing condensed milk is sold at a great many fountains. But our cream is not made of such stuff.

This Sale Closes July 1st. Take Advantage of These Prices While They Last.

The Ruminations of a Reasoner.

Beauty is only purse deep. It is natural instinct to prefer a rent in your conscience to a patch on your clothes.

A neighbor is a person of whom we may borrow. A nuisance is a person who borrows of us. Money has a refining influence, but too many of the rich haven't had it long enough.

It's naughty to flirt unless you are in earnest and then you can't.

To most of us flattery sounds more like the truth than the real article. Anybody can play the fool, but he is a rare genius who plays it and receives the applause of the multitude. Coming home late is the mother of invention.—Smart Set.
